iTech Seed Grand Challenge 2027

Website Registration: Details to Collect from Teams

PSG iTech Launchpad · Innozone and Startupzone

Based on the Proposal Format. Last date to apply: November 30, 2026. Proposals are scored out of 50 (five criteria, 10 marks each). Teams scoring below 30 are not recommended for a grant.

1. Team and account details

1.1 Team

Field	Type	Rule / validation
Team name	Text	Required, unique
Team size	Number	2 to 5 members
Woman member	Derived from gender	At least one woman member required
Student in one team only	Check	Email or roll number cannot appear in another team

1.2 Team members (up to 5; member 1 is the team lead)

Field	Type	Rule / validation
Full name	Text	Required
Department	Dropdown	Required
Year	Dropdown	II, III or Final year only
Email	Email	Required; unique across teams
Phone	Phone	Required; 10-digit
Gender	Dropdown	Required (used for the woman-member rule)
Roll number / college ID	Text	Required; for duplicate checks and verification
Team lead	Single select	Exactly one; single point of contact

1.3 Mentors

Mentor	Mandatory?	Fields
Faculty mentor	Yes	Name, department, email, phone
Additional faculty mentor	Optional	Name, department, email, phone
Industry or expert mentor	Yes	Name, organisation, designation, email, phone, LinkedIn (optional)

2. The idea (innovation and problem identification, 10 marks)

Field	Type	Limit / options
Project title	Text	Required
Problem statement (who faces it, where, how often, why it matters)	Long text	About 150 words; live word counter
Existing solutions and the gap	Long text	About 100 words

Field	Type	Limit / options
Proposed solution (what you build, how it works, what is new)	Long text	About 200 words
Type of PoC	Radio	Hardware / Software / Both

3. Readiness

Field	Type	Notes
Current technology readiness level (TRL)	Dropdown 1 to 9	TRL 2 to 4 preferred at application; target TRL 5 or above after the grant
Work done so far (simulations, prototypes, surveys, literature)	Long text	Required
Prior prize or funding for this idea	Yes/No + details	If Yes: agency, amount, overlap. Overlap must be disclosed and approved
IP status	Dropdown + text	None / prior or third-party IP / patent search done / filing done
Earlier participation	Multi-select (optional)	iTech Ideathon, Intensive Patent Writing Workshop, Entrepreneurship Boot Camp

4. PoC plan and milestones (technical feasibility, 10 marks)

The build runs from January 1 to June 30, 2027, with Demo Day in the second week of June.

Field	Type	Notes
Deliverables (what exists at the end of the grant)	Long text	Required
Test method	Long text	Required
Success measure	Long text	Numbers that show it works

Milestone table: six fixed rows, each with Milestone, Output and How it is verified.

Month	Milestone	Output	How it is verified
Month 1 (Jan 2027)			
Month 2 (Feb 2027)			
Month 3 (Mar 2027): milestone 1 review			
Month 4 (Apr 2027)			
Month 5 (May 2027)			
Month 6 (Jun 2027): Demo Day and closure			

5. Budget

Item-wise cost, up to ₹1,00,000 in total, with a reason for each item. The grant is released in three parts: 50% at sanction, 30% after the month-3 review, 20% after closure.

Item	Category	Qty	Unit cost (₹)	Amount (₹)	Why it is needed
Text	Dropdown	Number	Number	Auto (Qty × Unit)	Text
Add / remove rows					
Total				Auto; blocks submit above ₹1,00,000	

Category dropdown (allowed):

- Components, sensors, boards
- Raw material
- Fabrication and testing
- Software licences, cloud credits, datasets
- Field trials, user surveys, limited local travel
- Patent search and filing (with IPR cell approval)

Not allowed (show on the form):

- Team honorarium
- Personal laptops or phones
- Food and entertainment
- Purchases without a bill in the institute's or Launchpad's name
- Warning on any item above ₹5,000: prior written approval from the Launchpad coordinator is needed.
- Optional: show the 50% / 30% / 20% release schedule computed from the total.

6. Market and impact (10 marks each for business feasibility and impact)

Field	Type	Notes
Target users or customers (who will use or buy it)	Long text	Required
Size of the need (how many people or businesses, how often, cost today)	Long text	Required
Route to commercialisation (PoC to product or startup)	Long text	Required
Impact (benefit to industry or society, and how it will be measured)	Long text	Required

7. Declaration and online mentor approval

7.1 Team lead declaration (all boxes mandatory)

- The idea is original. Plagiarism or copied work leads to disqualification and, after sanction, recovery of the grant.
- The same PoC has not been funded by another agency, or any overlap is disclosed above.
- If sanctioned, the team will sign a grant agreement that includes an undertaking to pursue entrepreneurship and register under DPIIT and the Udyam Portal.
- IP created under the grant is filed in the names of the mentor, student inventors and PSG iTech, as per the institute's IPR policy.
- The faculty mentor and the industry mentor agree to guide the team.

Team lead e-signature: typed name and date.

7.2 Mentor approval by email link (replaces signatures)

- On submission, the faculty mentor and the industry mentor each receive a secure, single-use link by email.
- The mentor sees a read-only summary of the proposal and verifies with an email OTP.
- The mentor ticks the consent statements, types their name as e-signature, and clicks Approve or Decline (optional comment).
- The system records timestamp, IP address and name.
- The application is complete only when both mandatory mentors approve. The additional faculty mentor does not block completion.
- Reminders are sent at 48 hours and again before the deadline.
- If a mentor declines or the email is wrong, the lead can edit the mentor's details and resend the link.
- Editing the proposal after approval locks it and requires the mentor to re-approve.
- A mentor's email must differ from any student's email.
- The lead sees a status panel, for example: Faculty mentor: Pending, Industry mentor: Approved.

Consent statements shown to the mentor:

- I agree to guide this team.
- Faculty mentor only: I will certify progress and bills and attend the monthly reviews.
- I have read the proposal and confirm it is original to the best of my knowledge.

8. System features

- Application closes automatically after November 30, 2026.
- Save as draft; unique application ID on creation.
- Confirmation email to the lead, members and mentors.
- Optional attachments: prototype photos, one-page pitch, patent search report.
- Admin scoring sheet: innovation and problem identification, technical feasibility and PoC plan, business feasibility, social and industrial impact, team capability (10 marks each, total 50).
- Admin flag for scores below 30 (not recommended for a grant).
